

## ASSIGNMENT 2

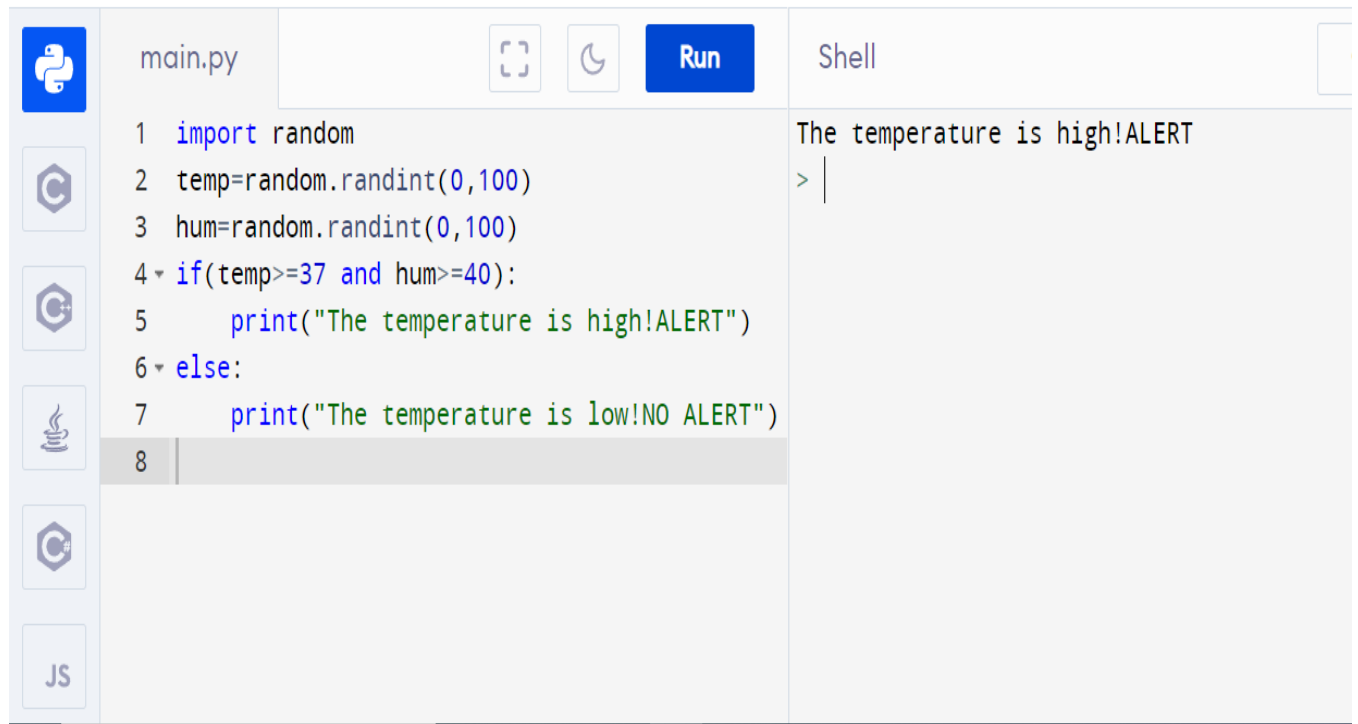

SOFTWARE COMPONENT: PYTHON

CODE:

```
main.py
1 import random
2 temp=random.randint(0,100)
3 hum=random.randint(0,100)
4 if(temp>=37 and hum>=40):
5     print("The temperature is high!ALERT")
6 else:
7     print("The temperature is low!NO ALERT")
8
```

**AFTER COMPILING:**

The image shows a code editor window with a file named `main.py`. The editor has a sidebar on the left with icons for Python, C, C++, Java, and JavaScript. The main area displays the following Python code:

```
1 import random
2 temp=random.randint(0,100)
3 hum=random.randint(0,100)
4 if(temp>=37 and hum>=40):
5     print("The temperature is high!ALERT")
6 else:
7     print("The temperature is low!NO ALERT")
8
```

Below the code editor is a "Shell" output window. It shows the output of the program: "The temperature is high!ALERT". The prompt ">|" is visible, indicating the program has finished execution.
